Take Desktop Shipping to the Highest Level with NeoShip ADVANCED

Eliminate Manual Entry of Addresses

Save time and avoid errors attributed to manual entry. Import up to 10,000 addresses to the Public Address Book and up to 1,000 addresses to the Private Address Book, per user.

Automate Repetitive Tasks Associated with Shipments Sharing the same Characteristics Across Multiple Addresses

Create up to 100 identical shipments to be sent to different recipients and addresses at one time. Batch Processing streamlines your shipping workflow.

Save Time and Eliminate Errors When Shipping Similar Items to a List of Recipients

Define a collection of recipient addresses as an Address Group, then add, modify, save and delete entries as needed. Every Address Group saved takes up one address entry within the Public or Private Address Group.

Obtain and Store USPS® Proof of Delivery Letter PDF

The Postal Service retains delivery data for each shipment, with associated signature and address images, when Extra Services options are applied. The proof of delivery letter is stored and available for viewing, printing and email.

Maximize Your Desktop Shipping Solution

Couple a USB scale and thermal label printer with your laptop or desktop computer, and you never have to leave your desk to ship a package.

Manage User Roles and Privileges

Assign roles and control a user's level of access to the system's functionality based on the user's role.
