The New Standard in Mail Production

The highly productive folding inserting system processes an unprecedented variety of mail.

The DS-600i meets the workflow demands of almost every application – from direct marketing to highly sensitive mailings, including medical billing and patient information, to payroll and personal financial statements. Neopost's inline personalization module provides security and the ability to meet privacy compliance requirements. For marketers, it provides unprecedented opportunities to customize mailings. And the DS-600i also has the ability to process flats efficiently and effectively.

Intelligent Productivity from Start to Finish

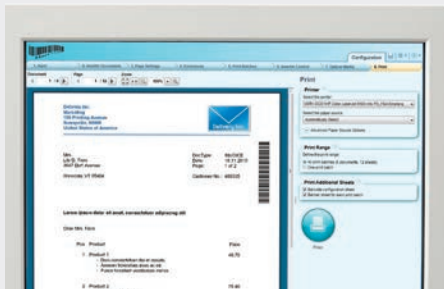

The DS-600i's large color graphic interface reaches new heights in user friendliness and workflow programming. Once a job has been programmed, running it is a simple matter of loading your materials, selecting the job and pressing start. Even changing over to a completely different job takes only minutes.

The DS-600i streamlines productivity every step of the way, from efficient paper loading to predictive intelligence that estimates when your job will be completed.

Automate Your Document Processing

Neopost's Output Management Software (OMS) simplifies, automates and enhances your document creation process.

- Automatically add a barcode to realize the optimal value of your folder inserter
- Select inserts from multiple trays
- Guarantee your mail's integrity with secure control marks
- Split the print file based on your criteria

Content Control and System Integrity You Can Rely On

The DS-600i's exclusive CIS scanning device can read any type of code, including OMR 1 and 2 track, 1D and 2D Datamatrix codes. With this technology, the code can be printed anywhere on the document.

The DS-600i IMOS operating system delivers full mailpiece integrity. Each feeder calibrates the first document fed and checks each subsequent document to ensure there are no double feeds.

The system records each document at input and then every movement through the system until the completed mailpiece is delivered to the conveyor.

For applications requiring the highest level of security, Neopost's Automated Insertion Management System (AIMS) electronically matches each mailpiece to the project's mailing data file, ensuring complete closed-loop verification.

Endless Possibilities

Optional document scanning and feeders can be licensed to read OMR, BCR or 2D codes that can be used for either matching personalized inserts with the primary document from the tower folder, or selectively feeding generic inserts based on the primary document's codes.

Inline Dynamic Envelope Printing (DEP) enhances customer information and security.

The DS-600i fully integrated direct impression envelope printing solution allows you to personalize envelopes as part of the mail assembly process. This eliminates the need for window envelopes and ensures the privacy of important customer information.

When printing in matched mode, each document is recorded by the folder inserter at input. Once the documents have been folded and inserted, the secure system prints the matched name and address on the closed-face envelope.

This process ensures integrity and security, allowing sensitive information to remain confidential.

DS-600i Specifications

Processing speed	Up to 6,000 envelopes/hour Up to 12,000 sheets/hour
Color touch screen	Standard (widescreen)
Automatic settings	Standard
Job memory	No limitation
Feeders	Up to 8 modules (8 feeders or 7 feeders plus 1 tower folder)
Document feeder capacity	Up to 2,000 sheets (combinations of 500 and 1,000 sheet hoppers)
Envelope feeder capacity	Up to 800 (500 flats)
Hand feeding	Standard
Multi-sheet feeding	Standard
Cascade from feeders	Standard
Divert bin for documents	Standard
Envelope conveyor	Standard
Automatic double detection	Standard
Folding capacity (one set, single fold)	Up to 8 sheets
LAN embedded	Standard ethernet connection
Fold types	Letter, z-fold, single, double parallel, no fold $\triangle Z \angle \triangleleft _$
Document height	Up to 16" portrait feed (folding), 8.5" landscape feed (no folding)
Document width	Up to 8.5" portrait feed (folding), 12" landscape feed (no folding)
Maximum insert thickness	6 mm
Maximum set thickness	10 mm
Envelope length	3.875" to 10"
Envelope width	8.875" to 13"
Options	
Accumulate before folding	Standard
High-capacity document feeder	Up to 1,000 sheets (20 lb.)
Barcode Reader (BCR) for 1D and 2D barcodes	Available
Optical Mark Recognition (OMR)	Available
Output Management Software (OMS)	Available
Automated Insertion Management (AIMS)	Available
Inline Envelope Printing	Available
Mailing system interface	Available
System Dimensions	
DS-600i (one feeder plus tower folder and furniture)	Length x Depth x Height 104" x 25" x 59"
Weight (one feeder plus tower folder and furniture)	880 lbs.

**We've Got You Covered**

Neopost maintains a network of offices across the country to provide local customer support and trained technicians who are ready to assist you. You can be confident that when you need knowledgeable support or expert service, the point-of-contact will be a Neopost office in your area consisting of a team of local professionals.

Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. We deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. Our 6,600 employees worldwide are committed to making your interactions more responsive and more powerful - offering you a competitive edge that will open up a wealth of business opportunities.
