Productive, Versatile and Intuitive

Combined with our mail management software, the DS-75i is the perfect mail assembly solution.

The DS-75i combines unparalleled ease of use with advanced technology. With its compact footprint, large loading and unloading capabilities, and features such as CIS scanning technology, the DS-75i can process a wide variety of mailpieces for invoicing, monthly statements, direct marketing campaigns and many other applications.

Getting your mail folded and inserted has never been so simple. The intuitive color touch screen of the DS-75i prompts the operator through each step of the process. This scalable system is extraordinarily quiet and designed to fit perfectly into any work environment. With its WiFi and LAN embedded capabilities, it can be connected to your network to enable remote diagnostics and remote assistance to provide help when needed.

The Complete Document Process

1 With Neopost's output management software, you can automatically add barcodes, giving more processing flexibility to your documents and guaranteeing your mail integrity.

2 Select inserts from multiple trays, providing the ability to personalize your mail.

3 Split your print file based on the number of pages, simplifying mail assembly.

Environmental Commitment

The DS-75i carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the DS-75i represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

The DS-75i Offers Flexibility of Configurations

Increase Productivity

- High-capacity feeder
- MaxiFeeder tray
- High-capacity vertical stacker

Process Invoices and Statements

- 2 standard feeders
- 1 MaxiFeeder tray
- High-capacity vertical stacker

Enhance Customer Communications

- 3 standard feeders
- Side exit tray

2. Touch Screen Display

The 7" color touch screen enables navigation easily to create a new job or access existing jobs within seconds

1. Automated Stacker

The high-capacity vertical stacker holds up to 500 finished envelopes

3. CIS Scanner

Internal Contact Image Sensor (CIS) scanner can read OMR, OCR, 1D and 2D codes printed horizontally or vertically on the document

4. Document Feeders

Process multiple page sets at high processing speeds using three standard feeders holding up to 975 documents (3 x 325). While in cascade mode, feeder sensors ensure continuous operation

A State-of-the-Art Graphical User Interface

Designed for all users, the intuitive, full color, high-resolution 7" touch screen provides a wizard-based user-friendly interface, making it easy for anyone to select and run their folding and inserting jobs.

Alternatively, see how easy it is to create a new job. Simply load your documents and envelopes and press the start button. The DS-75i will automatically measure the length of all loaded documents, as well as the envelope, in order to adjust all settings and process the appropriate mail items.

Smart Solutions to Maximize Flexibility

The exclusive FlexFeed® tray enables you to process many different document sizes. In combination with the unique semi-automatic envelope separation mechanism, this provides full flexibility for feeding a wide variety of document types. You can use practically any size and type of material to address your prospective and current customers efficiently.

Optimize Productivity with the MaxiFeeder Tray

Choose to load the MaxiFeeder with up to 325 BRE or load up to 1,200 sheets to maximize your productivity.
